

Mission

The mission of a vocational education institution with a centuries-old history is to train qualified, competent staff in accordance with international standards, to support their personal, professional growth, and employment. By keeping a core profile and supporting the economy of the country, the College offers programs to all interested individuals that are relevant to labor market demands.

Vision

By 2027, Community College Panacea will be one of the most successful vocational schools with a focus on healthcare and other directions relevant to labor market demands, also with high-quality teaching and service, professional/motivated teachers, motivated students, successful and employed graduates, flexible administration and competitive, successful partners. In 2020-2027, Community College Panacea will fill up the labor market with 900 qualified, professional nurses and 600 pharmacists that meet international standards.

Values

- Commitment to traditions
